

hypr_Box_struct

```
graph BT; A[hypr_Box_struct] -- box --> B[hypr_SStructNeighbor];
```

The diagram illustrates a pointer relationship between two data structures. At the top is a white rectangular box labeled 'hypr_Box_struct'. At the bottom is a gray rectangular box labeled 'hypr_SStructNeighbor'. A dashed purple arrow points from the top of the gray box to the bottom of the white box. To the right of the arrow, the text 'box' is written.
